

SERVICES

With PACC(WORLD) and the Beautification Center, painting, chemical applications and grounds maintenance will soon be as easy to order as supplies. And, we'll maintain your trees, offer pest control and even take care of your snow and ice problems. Look for our new lineup of service contracts starting in late summer, 2000.

Services is the fastest growing field in today's business world! GSA harnesses the power of service contracting to afford you the opportunity to accomplish mission requirements, meet new challenges, and build new partnerships.

Future service Multiple Award Schedule offerings from GSA's Hardware and Appliances Center include the Preparation and Application of Chemical Compounds - PACC(WORLD) and the Beautification Center. We anticipate contracts for these services to be in place by late summer.

PACC(WORLD) will include such services as: surface preparation, application of chemical compounds, and related support products and support training/consultation services at or on Federal facilities and/or properties.

The Beautification Center will include such services as: grounds maintenance, pesticide application, tree trimming and removal, and snow removal at or on Federal facilities and/or properties.

For additional information regarding the upcoming PACC(WORLD) and Beautification Center service Multiple Award Schedule contracts, please contact Customer Service at 816-926-7315; DSN 465-7315.
